Join Us at the 2021 CAHS Research Day – Virtually!!

We look forward to seeing you for Research Day, virtual edition! This year, we will hold Research Day using Symposium by ForagerOne as our hosting platform.

Starting April 26th, you will be able to see all presentations (oral and poster, graduate & undergraduate) by clicking this link. From there, click on “presentations” at the top of the page. You will be able to filter by department and student classification level.

On April 28th, please join us in supporting students hosting live Q&A sessions-by clicking on the “live sessions” tab and then the associated Webex session link. You can also comment virtually under all presentations to ask your questions.

We would love for you to also join our live session awards ceremony on April 28th to recognize all the hard work our students have done this year.
